MARBLE & GRANITE

**Granite is a kind of hard fire rock that mainly consists of quartz, feldspar and mica. Granite is characterised by several advantages, including:**

- 1. Hardness and toughness: Granite is a hard and durable rock that withstands pressure and corrosion well.**
- 2. Heat resistant: Granite withstands high temperatures, making it ideal for use in kitchens, bathrooms, floors and walls**
- 3. Resistant to scratches: Granite withstands daily use without being easily scratched.**
- 4. Easy maintenance: Granite is easy to clean and maintain with the right materials.**
- 5. Variety of designs and colours: Granite is available in a variety of colours and designs to suit different types of decor.**
- 6. Longevity: Thanks to its hardness and durability, granite is a durable material that lasts a long time.**

**These features make granite a popular choice for use in the construction and decoration industry, adding beauty and elegance to the spaces and providing durability and corrosion resistance.**

**Regular Finished: Polished, Honed, Flamed, Leathered, Antiqued, Brushed, Bush-hammered ect.**

**Thickness: 10mm, 15mm, 18mm, 20mm, 25mm, 30mm, etc**
